

EIR Ref: 2017/037

3rd May 2017

REQUEST UNDER ENVIRONMENTAL INFORMATION (SCOTLAND) REGULATIONS 2004

I refer to your request for information, received by email on 3rd April 2017.

We have applied the exemption under Section 39(2) of the Freedom of Information (Scotland) Act 2002 as we have determined that the information sought in your request is environmental information. We are therefore handling your request under the terms of the Environmental Information (Scotland) Regulations 2004 (EIRs). In this case the public interest in maintaining this exemption and in dealing with the request in line with the requirements of the EIRs outweighs any public interest in disclosing the information under FOISA.

“I note your camping terms and conditions state that all portable toilets must be emptied at chemical waste disposal points. Please provide me with a list of all locations of chemical waste disposal points in the National Park which are available for public use (as opposed to disposal points in private camping and caravan sites which are only for the use of those staying there.”

The Park Authority does not hold a list of all locations of chemical waste disposal points in the National Park which are available for public use, except for those listed below. Accordingly I have to advise under S10(4)(a) of the EIRs that this information is not held.

“Please could you also confirm if there are any chemical disposal point available for public use whether any of these are operated by the LLTNPA?”

Chemical waste disposal facilities are available for public use at our Loch Lubnaig visitor facility and at the Duncan Mills Memorial Slipway in Balloch . The Loch Lubnaig facility is managed by a private operator on behalf of the Park Authority. Details are on our website at: <http://www.thecabinatlochlubnaig.co.uk/>

Yours sincerely
