If not based at Duncan Mills, please also can you provide the same information for any water based rangers for the same day.

There were no other water based rangers on duty on the specified date, other than those based at Duncan Mills slipway as set out in the table above. Accordingly, I have to advise you under section 17(1)(b) of the Act, that there is no relevant information held.

Due to the warm sunny weather were any staff member required to work additional hours or overtime?

There were no staff required to work additional hours or overtime on this date as a result of weather conditions.

Were additional staff employed due to the fact it was a Glasgow public holiday?

Across the summer season staffing requirements are planned in advance and take into account factors such as public and school holidays. A range of operational factors can lead to a change in the number of staff on duty on any given day including; good or bad weather forecasts, large scale events, staff availability or other business priorities.

On the day in question the number of staff on duty at Duncan Mills Memorial Slipway and patrolling Loch Lomond were as planned to meet anticipated requirements.

Yours sincerely
