For this application there would not be a significant departure from the Development Plan if the application were to be approved as the proposed development is considered to represent a material departure from the Local Development Plan therefore this application can be determined by the Planning & Access Committee.</p> <p>Members confirmed that they were in agreement that this application, if approved was a material departure from the Local Development Plan and that the application and it was appropriate that it should be determined by the Planning & Access Committee.</p> <p>Consideration of Item</p> <p>Planning Officer (CS) thanked the Chair for covering this point and then proceeded to present the planning application.</p>
