Appendix 4(a): Percentage of Ranger visits where they did/did not encounter litter (in areas that are now) within a Camping Management Zone

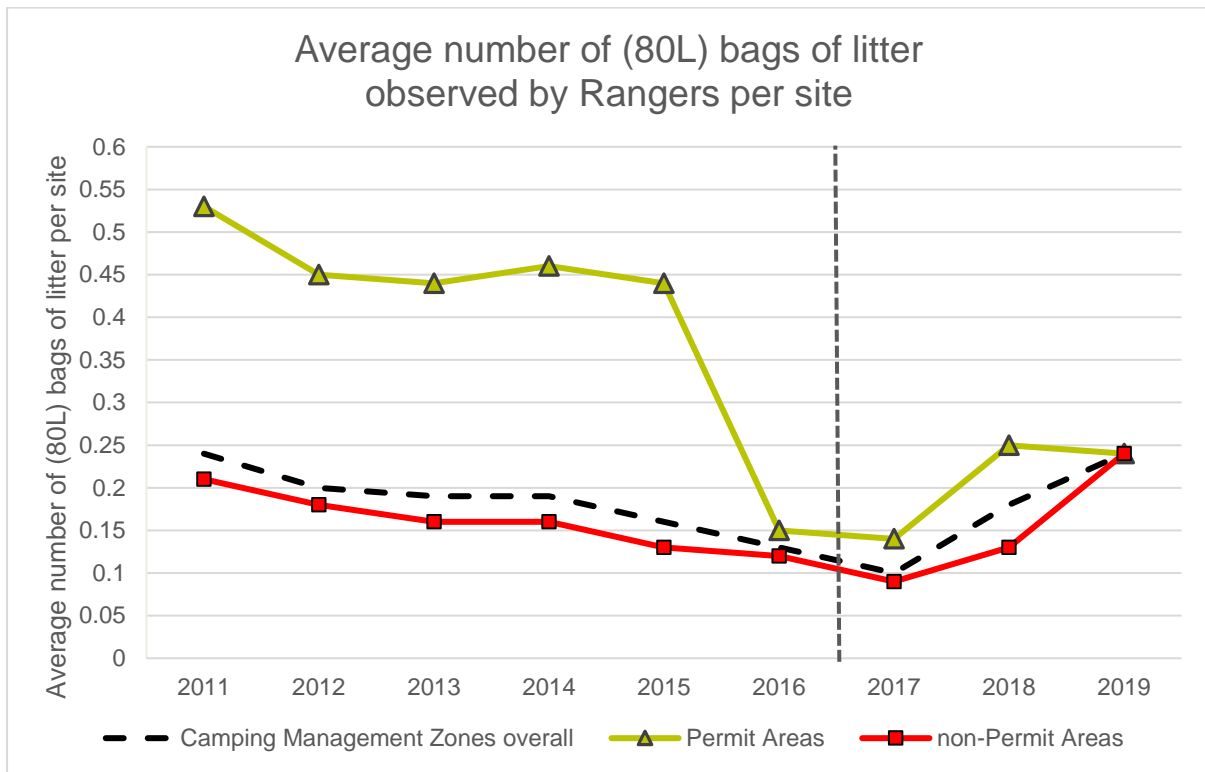

Appendix 4(b): Percentage of Ranger visits where a litter type was observed (2018 versus 2019)

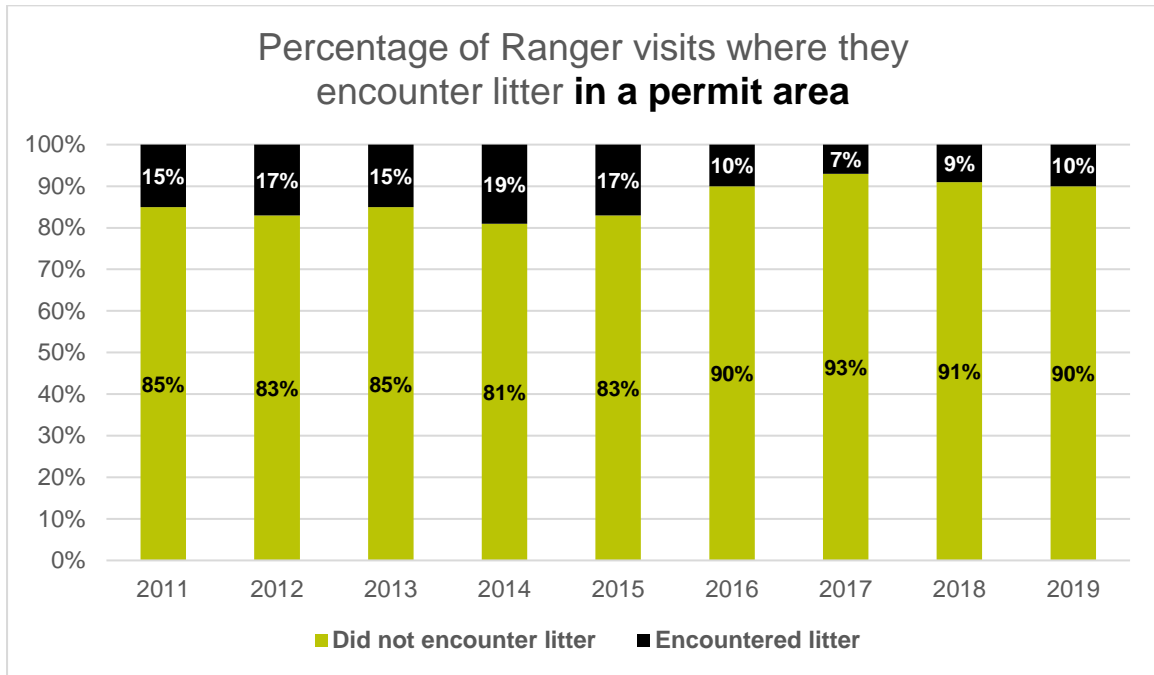

Note: From 2018 onwards Rangers classified the type of litter found when they encountered it on patrol. Data from pre-2018 does not allow for the type of litter to be broken down by category so it is only possible to compare 2018 and 2019 data so far.

Appendix 4(c): Average number of (80L) bags of litter observed by Rangers per site

Appendix 4(d): Percentage of Ranger visits where they did/did not encounter litter in a permit area
