Participation Requests Reporting Template 2020/21 for Public Service Authorities

Section 32 of the Community Empowerment (Scotland) Act 2015 requires public service authorities to produce an annual report on Participation Request activity and publish this no later than 30 June each year. This template has been created to gather participation request data for the period 1 April 2020 to 31 March 2021. Information provided will help inform policy and practice at local and national level as the data will be collated and shared by the Scottish Government’s Community Empowerment Team. However, it is for each public service authority to make their own annual report publicly available by 30 June 2021, whether using this template or not.

Please provide information in the four sections below and email the completed template by 30 June 2021 to community.empowerment@gov.scot.

Section Three – Partnership Working & Promotion of Participation Requests

3.1 Please provide details of any engagement with support organisations such as local Third Sector Interfaces and public sector Community Learning and Development staff or national organisations such as the Scottish Community Development Centre.

_For example has any new practices to support Participation Requests been developed from working with other bodies, or any learning gained?_

A review of Community Empowerment Act policy and procedures continues (postponed by the COVID-19 crisis) with the aim of improving the capacity of the organisation to support PRs.

Staff training opportunities with organisations such as the Scottish Community Development Centre have been identified with the aim of delivering these when some normality returns after COVID-19 crisis.

3.2 Please provide details of action taken to promote the use of Participation Requests or support Community Participation Bodies in making a Participation Request.

_For example this could include: Support before making a request, such as to determine whether a participation request is the most appropriate route; - Support to make the request such as assist groups to complete forms, or identify appropriate outcomes; and/or Support to take part effectively in outcome improvement processes (whether or not they resulted from a formal participation request)._ 

Our Participation Request information and core internal procedures ensure staff can provide early support if a community body is thinking about a Participation Request. This support would be bespoke to the context and enables discussion around outcome improvement, the processes and criteria for submitting a valid Participation Request and where further independent support can be sourced.

3.3 Please let us know what actions you have been taking to ensure that your processes are inclusive.

_For example, this could include accessible information and other support, which enable wider use of participation requests by all population groups including those with protected characteristics._

Park Authority engagement mechanisms include providing information and support in a variety of forms including via video, blogs, images, interactive mapping, story maps, website, social media etc. Alternative languages and formats or large print information can be provided on request.

Our youth engagement programme has established a Youth Committee to support youth involvement/engagement, and the Ranger education and outreach engagement programme continues to support people experiencing disadvantage to be able to visit, learn and benefit from the positive experiences spending time in the National Park provides. A range of techniques are used, such as providing specialist support from Backbone to involve black/minority ethnic people in environmental activities; Junior Ranger and Rural Skills programmes; (previous) work with Deaf-Blind Scotland; educational learning packs; Education Travel Grants for schools; John Muir Award.

Our Place Planning programme is evolving in response to the Planning (Scotland) Act 2019 and Local Place Plans (LPP) – this comprises robust and inclusive engagement with all aspects of a local community. Engagement by young and older people in these activities has been evidenced. We intend working with local groups to develop a Framework for LPPs, which will include standards of engagement.
3.4 Please outline any plans you have to continue involving local people and local groups in outcome improvement processes as a result of your Participation Request policies (and also outwith formal participation requests).

n/a

3.5 Please provide details about any work undertaken to consider wider reviews of participation practice, and any such methods used to engage with communities.

A review of stakeholder engagement is underway and a place-based approach to ongoing community engagement, with the potential for the development of co-production, is evolving particularly in relation to Visitor Management issues. There is also discussion with a number of Community Councils on the most mutually-appropriate engagement mechanisms that can be developed.

Section Four – Additional Information

4.1 Please use this space to provide any further feedback not covered in the above sections.

For example, we are interested in your reflections about what has gone well and what has gone less well in relation to Participation Requests over the past year?

Is there any aspect of the process that you intend to adapt or change in the year ahead?

Have you identified any needs for guidance or support that would support the process?

If you have developed any case study material or published new information about Participation Requests please share links to those with us here.

Any other information:

Next year we hope to have more insights to offer once our first 3 PRs are completed.
