REQUEST UNDER FREEDOM OF INFORMATION (SCOTLAND) ACT 2002

We refer to your request for information, received by email on 14 July 2025. The information you have requested is environmental information, as defined in Regulation 2 of the Environmental Information (Scotland) Regulations 2004 (EIRs). We have therefore applied the exemption in section 39(2) of FOISA and dealt with your request under the EIRs alone.

Your Request

I would like to request a complete list of all navigation buoys currently deployed on Loch Lomond, including their types, coordinates (latitude/longitude and/or OS grid references), and any relevant notes on status or function.

Our Response

Where navigational buoys on Loch Lomond are owned or managed by the National Park Authority, we have provided the requested information in the attached pages. However, you should note that we do not hold information about buoys installed and maintained by third parties.

Please also note that we are currently in the process of a significant buoy installation and replacement program. Therefore, while the figures and positions provided in the attached were correct at the beginning of August 2025, they may be subject to change.

You may also find information relevant to your request at the following page of our website:
